Key features

Articlecode: 53960.345105

Light intensity: 2 cd >2 hours

Smoke duration: >15 min

Dimensions: 200x500mm

Product features

This distress signal is designed to be mounted vertically on the ship's bridge. When the lifebuoy is thrown overboard, the MOB is pulled with it and as it leaves its bracket it automatically emits light and smoke to attract attention to the person in the water. The MOB has a lithium battery and can be used as a day and a night marker.
